Includes PSD changes: No  
Includes Trade Matrix: No  
Unscheduled Report  
Beijing [CH1], CH

This report was prepared by the Office of Agricultural Affairs of the USDA/Foreign Agricultural Service in Beijing, People's Republic of China for U.S. exporters of domestic food and agricultural products and paid for by the US Codex Office. While every possible care was taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. **FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.**

### **Introduction**

The People's Republic of China Ministry of Health (MOH) published DRAFT versions of several National Standards in August 2002 on the MOH website ([www.moh.gov.cn](http://www.moh.gov.cn)). This document is an UNOFFICIAL translation of a National Standard that appeared on that website.

The MOH has not published a final version to this DRAFT therefore, the previous standard is still valid. National Standards that are abbreviated 'GB' and issued by MOH are compulsory standards that both China's domestic goods and goods imported into China must satisfy. MOH standards abbreviated 'GB/T' are voluntary.

At this time, U.S. industry and government officials are invited to offer comments on the DRAFTED National Standard. Questions and comments should be submitted to the USDA FAS International Trade Policy Office of Food Safety and Technical Services by fax (202-690-0677) or by email "[ofsts@fas.usda.gov](mailto:ofsts@fas.usda.gov)" and "[roseanne.freese@usda.gov](mailto:roseanne.freese@usda.gov)". Individuals/organizations offering comments are requested to 'cc' the U.S. Embassy Office of Agricultural Affairs by fax (86-10-6532-2962) or by email "[AgBeijing@fas.usda.gov](mailto:AgBeijing@fas.usda.gov)".

Once finalized, the Standard will replace GB 14974-94, Maximum Levels of Patulin in Apple and Hawthorn Products

### **Items noted in the DRAFT for Maximum Levels of Patulin in Apple and Hawthorn Products**

#### **BEGIN TRANSLATION**

Comparing this Standard with GB 14974-94, the main modifications are as follows:

- Semi-processed products (raw juice or paste) are deleted from the scope of the original standard.

### **GB 14974-XXXX Maximum Levels of Patulin in Apple and Hawthorn Products**

#### **1. Scope**

Maximum levels of Patulin in Apple and Hawthorn products are specified in this standard. This standard applies to apple and hawthorn products.

## 2. Documents Cited by this Standard

The clauses in the following documents that were cited by this Standard became clauses of this Standard. For cited documents with a date, all their subsequent modifications or revisions do not apply to this Standard. However, parties having reached an agreement based on cited standards with a date are encouraged to study whether the latest versions of the cited documents with a date are applicable. For cited documents without a date, the latest versions apply to this Standard.

GB/T 5009.185      Determination of Maximum Levels of Patulin in Apple and Hawthorn Products

## 3. Technical Requirements
